

Amendments to the Claims:

The listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. – 33. (Cancelled)

34. (Currently Amended) A pharmaceutical compositions, wherein said pharmaceutical composition comprises ginseng fraction CVT-E002 and a pharmaceutically acceptable carrier.

35. (Currently Amended) A method of preparing a pharmaceutical composition suitable for treating a condition characterized by low immunity, wherein said method comprises ~~adding a low immunity condition~~ combining an effective ~~treating~~ amount of ginseng fraction CVT-E002 and, optionally, an effective amount of another medicament that is suitable for treating a condition characterized by low immunity ~~in a low immunity condition~~ ~~effective treating amount~~ with at least one pharmaceutically acceptable excipient to produce a pharmaceutical composition suitable for treating a condition characterized by low immunity.

36. (Previously Presented) The method of claim 35, wherein the condition is selected from the group consisting of common cold, influenza, chronic fatigue syndrome, AIDS and cancer.

37. (Currently Amended) A method of stimulating the production of IL-1, IL-16 and/or TNF- α in cells, wherein said method comprises ~~administering a production stimulating~~ contacting said cells with an effective amount of ginseng fraction CVT-E002 ~~to said cells.~~

38. (Cancelled)

39. (Currently Amended) A method of activating B-lymphocyte proliferation and antibody production resulting from said B-lymphocyte proliferation in a patient in need of such proliferation, ~~and the resulting antibody production~~ wherein said method comprises administering ~~a B-lymphocyte proliferating~~ to the patient an effective amount of ginseng fraction CVT-E002.

40. (Currently Amended) A method of treating a condition characterized by low immunity in a patient in need thereof, comprising administering to ~~be~~ the patient a ~~condition treating~~ an effective amount of ginseng fraction CVT-E002.

41. (Original) The method of claim 40, wherein the condition is selected from the group consisting of common cold, influenza, chronic fatigue syndrome, AIDS and cancer.

42. (New) A method of stimulating the *in vitro* production of immunoglobulins in cells, wherein said method comprises contacting cells with an effective amount of ginseng fraction CVT-E002.

43. (New) A method of stimulating the *in vivo* production of immunoglobulins in a subject in need thereof, wherein said method comprises administering to the subject an effective amount of ginseng fraction CVT-E002.
